

Devoted to create. Committed to perform.

Technical Documentation Editor (m/f/d)

CTI Systems S.à r.l. is a leader in the supply and installation of integrated automated manufacturing solutions in the area of heavy loads. Our portfolio includes automated material handling solutions, storage systems, surface treatment installations, assembly lines, software solutions for production control (MES) and integration of machines and installations from other suppliers.

Your responsibilities

- You will be responsible for creating and managing technical documentation such as operating and conversion instructions for our systems and machines
- Researching, obtaining and coordinating information content is part of your daily work
- You will take into account the applicable international standards, guidelines and safety requirements
- Your tasks will also include the independent creation of graphics and images suitable for documents using 3D CAD data and photos you have taken yourself

Your profile:

- Professional experience of 3 years in a manufacturing environment as a technical writer or in the field of technical communication
- A Bachelor degree in Engineering or a technical field
- Career changers (m/f/d) with technical and linguistic affinity are also welcome
- Good experience with word-processing-programs, graphic-programs and 3D application tools
- Very good knowledge of German and English, French would be an asset
- Strong communication and teamwork skills

We offer:

- A challenging job in an international and ambitious company
- An attractive remuneration package
- Excellent opportunities for professional and personal development
- An open-ended contract
