

Devoted to create. Committed to perform.

IT Administrator (m/f/d)

CTI Systems S.à r.l. is a leader in the supply and installation of integrated automated manufacturing solutions in the area of heavy loads. Our portfolio includes automated material handling solutions, storage systems, surface treatment installations, assembly lines, software solutions for production control (MES) and integration of machines and installations from other suppliers.

Your responsibilities:

- Installing and configuring software and hardware on the company's devices;
- Maintaining and developing internal network servers and other central technology tools;
- Setting up computers and configuring users for desktop workstations;
- Checking the performance of the system and executing necessary IT maintenance to keep the system performing well;
- Helping out colleagues with IT problems;
- Troubleshooting issues and breakdowns on computers and systems in the company;
- Upgrading systems with new versions and models;
- Conducting training on new technologies for staff;
- Creating internal technical documentation, manuals and IT policies.

Your profile:

- Good knowledge of English, German and/or French;
- A completed IT related education or a proven experience as a System Administrator, Network Administrator or similar role;
- Team player, creative, proactive and flexible, strong communication and teamwork skills;
- 2 - 3 years experience in an IT related field.

We offer:

- A challenging job in an international and ambitious company;
- An attractive remuneration package;
- Excellent opportunities for professional and personal development;
- An open-ended contract.
